 Lab Section _____ I was present and performed this exercise (initials) LLR

Common Aseptic Transfers and Inoculation Methods

OBSERVATIONS AND INTERPRETATIONS

Describe the appearance of growth on/in each medium. Draw representative samples of each growth type.

Organism	Medium inoculated	
	Nutrient Agar Slant	Nutrient Broth
<i>Escherichia coli</i> on NA slant	murky; raised, multiple colonies	Bubbly at top; sediment is present
<i>Micrococcus luteus</i> on NA slant	raised; ivory in color	Broth is yellow and creamy Sediment is visible
<i>Micrococcus luteus</i> in NB broth	Pellicle is seen at the top	Broth is cloudy and Sediment is visible
<i>Micrococcus luteus</i> on NA plate	isolated colonies; raised; ivory
