

Career and Personality Assessment

Each student will complete various psychological batteries focusing on appropriate career options and personality assessment. The student will then use these measures, normative results, and other resources to conduct a self-analysis. Do you agree with what the measures report? Do the tests' career suggestions align with what you see yourself doing? Does the personality measure seem to mesh with the career options? Interact with this material in a 3-4 page paper. All papers should have 1" margins and use Times New Roman 12pt. font. A partial page does not count as a full page of text. (For example, 2 ¾ pages of text will not meet the minimum requirement of 3 pages.)

Checklist

DO

1. Complete MBTI & Holland's (Bonus inventories = Bonus points)
2. Personalize the personality assessment
3. Discuss results from a career perspective
4. Integrate the personality and career results
5. Follow formatting guidelines!!!
6. Get personal! Your paper should not be like anyone else's
REGARDLESS of personality similarities and/or career goals!

DON'T

1. Fail to complete MBTI and Holland's. You can't pass the assignment w/o both sets of results!
2. Fail to discuss both your personality and your career interests, values and goals
3. Turn in less than 3 FULL pages of typed text (headings and titles are NOT included in paper length)
4. Simply plagiarize assessment results. Interpret them. Make them your own.
5. Misspell words or use improper grammar
