Proficient Not Proficient

PSY-790-01: Advocate for and extend psychology's role and responsibility in promoting agency and the psychological well-being of individuals, communities, and organizations

136 (17%)

Feedback: You clearly show your understanding of how to advocate for the role of psychology toward promoting well-being.

0 (0%)

PSY-790-02: Adapt to shifting demands and ill-structured problems by critically evaluating the relevance, priority, and appropriateness of various information and potential courses of action

136 (17%)

0 (0%)

Feedback:

There are some significant issues here and it is not clear how you understand research in relation to the topic.

PSY-790-03: Design, conduct, and evaluate research through the lens of its potential to advance knowledge in psychology as well as the psychological well-being of individuals, communities, and organizations

136 (17%)

0 (0%)

Feedback:

Partly because there are grammar errors that impact really understanding and there are some methodological issues. You are still referring to this as a cross-sectional design and is, as mentioned previously, just a piece of the design. It is not clear how the approach will help

Proficient	Not Proficient
PSY-790-04: Integrate psychological theories, methods, and research to generate new knowledge and promote agency and the psychological well-being of individuals, communities, and organizations 128 (16%)	you address the RQs. Your variables are general - it is not clear if they are more constructs are truly broken down to variables. It is not clear what you mean by a "personality variable." You talk about a mediating variable but not the relationship it mediates. I assume you did not actually collect data (you would want an IRB approval). 0 (0%) Feedback: I think this is a powerful and important topic of study and you have a good start. There is not a lot of theory discussed and there are some issues with methods. This integration of theory and research is not really well developed.
PSY-790-05: Incorporate empathy, reflectivity, and an appreciation for collaboration and diversity of perspectives into efforts to promote agency and the psychological well-being of individuals, communities, and organizations 136 (17%)	I think this showed in the course, but you did not provide the reflection that I could find that would more clearly explore this element. 0 (0%) Feedback: Ethical considerations do not clearly emerge in the paper.
PSY-790-06: Protect the integrity and professional responsibility of psychology through the demonstration of ethical comportment in all aspects of the profession 128 (16%)	
Raw Total: 136.00 (of 800.0) Name: PSY-790 Final Project Rubric (SA)
