

FOUR

“YES / NO / OKAY, BUT”

Three Ways to Respond

THE FIRST THREE CHAPTERS of this book discuss the “they say” stage of writing, in which you devote your attention to the views of some other person or group. In this chapter we move to the “I say” stage, in which you offer your own argument as a response to what “they” have said.

Moving to the “I say” stage can be daunting in academia, where it often may seem that you need to be an expert in a field to have an argument at all. Many students have told us that they have trouble entering some of the high-powered conversations that take place in college or graduate school because they do not know enough about the topic at hand, or because, they say, they simply are not “smart enough.” Yet often these same students, when given a chance to study in depth the contribution that some scholar has made in a given field, will turn around and say things like “I can see where she is coming from, how she makes her case by building on what other scholars have said. Perhaps had I studied the situation longer I could have come up with a similar argument.” What these students came to realize is that good arguments are based not on knowledge that only a special class of experts has access to, but on everyday habits
