1 doesn't seem like an ITS solution  
 2 seems like the only ITS solution

Owner: Sand

alternative 1: speak in terms of operators rather than users.

alternative 2: kind like a technologized way of alternative 1

evaluator: Jungi Shan

alternative 3: are you suggesting re-construction of the existing road?

FLORISAGANITSD

- How is avoiding congested roads an ITS?
- How is Road Designing Engineering an ITS solution?

W's - Said  
 Eval - Kevin Farrell

Alt 1 - doesn't seem like a solution, you're just telling me about things that already exist.

Alt 2 - sounds like you have a good idea but need to expand more. this gives several tech options but you need to choose 1

|               | Objective 1 | Objective 2 | Objective 3 | Objective 4 | Objective 5 | Total Points |
|---------------|-------------|-------------|-------------|-------------|-------------|--------------|
| Weight        | Wt 1        | Wt 2        | Wt 3        | Wt 4        | Wt 5        |              |
| Alternative 0 | 1           | 1           | 1           | 1           | 1           |              |
| Alternative 1 | 2           | 2           | 3           | 4           | 4           |              |
| Alternative 2 | 4           | 3           | 4           | 3           | 3           |              |
| Alternative 3 | 1           | 4           | 1           | 1           | 1           |              |

Alt 3 - NOT ITS solution... I don't feel as though you listed any solutions, you just listed a bunch of possibilities but didn't expand on them.
