

, Knowledge in chemistry of the coating,
and know finance and management.

Hardest writing was my resignation when I was working
in oil and gas company to start my own
Business

example what you learned vs what you encounter
in life is that you like reading a manual about
how to drive a car vs do the driving.

You have a manual?

if you don't read the manual you would not drive.
what ever you study gives you the tools.

I think what makes mechanical engineering exceptional
major its the time factor, unique, fantastic is the
time function.

sample is

for time I try a sample letter who ever due
to secret information the contan tce these

I was not able to get.

however, I was promised to look to the matter.
