Breast cancer 8
Bulimia Nervosa
Bunion
Bursitis
Carpal tunnel syndrome
Celiac Disease
CHF
Chrono's Disease
Chronic Fatigue Syndrome
Chronic Migraines
Cirrhosis
Clostridium difficile infection
Coronary artery disease
Cushing's syndrome

Cystic Fibrosis
Deep vein thrombophlebitis (DVT)
Diabetic Retinopathy
Ectopic pregnancy
Eczema 1
Emphysema
Epilepsy 9
Erectile Dysfunction
Female Urinary Incontinence
Fibromyalgia
Gastroesophageal reflux disease (GERD)
Gestational Diabetes
Glaucoma - choice D 3
Gout
Guillain Barre Syndrome
Hashimoto's Disease
Helicobacter pylori
Hemorrhoids
Herpes zoster
Hypertension 10
Hypothyroidism
Irritable bowel syndrome
Lupus
Lyme disease
MRSA
OCD
Panic/Anxiety Disorders
Parkinson's disease

Pelvic Inflammatory Disease
Peripheral artery disease
Peripheral pulmonary stenosis
Peripheral vascular disease
Pheochromocytoma
Plantar Warts
Pleural effusion
Polio 2
Poly Cystic Ovarian Disease
Polycythemia
POR Deficiency
Primary pulmonary hypertension
Prostate cancer
Psoriasis
Psoriatic Arthritis
PTSD
Pulmonary edema
Pulmonary Embolus 7
Quadruplegia
Raynaud's syndrome
Renal failure
Restless Legs Syndrome
Retinal Detachment
Retinoblastoma
Rett's Syndrome
Rheumatic fever
Rheumatoid arthritis
Rosacea
Scabies

Schizophrenia
Scleroderma
Scoliosis
Seasonal Affective Disorder
Seborrheic dermatitis
Shingles
Sickle-cell anemia 4
Sleep Apnea
Syphilis 5
Testicular Cancer
Tetanus 6
Thrombus
Torn Rotator Cuff
Tourette Syndrome or Cop Syndrome
Toxic Shock Syndrome
Toxoplasmosis
Transient ischemic attack
Trichinosis
Trisomy 21 syndrome
Tuberculous
Type I and Type II diabetes
Uterine Fibroids
Varicose Veins
Vertigo
West Nile Virus
Wheat allergy

Part One = choose 10 diseases to research & submit online week 6
 Part two = choose one disease to present in class week 9.
