

Bandar Almutairi

Before I got admission from CSUF, I was studying in UCSD english institute. There are several problems I faced at beigning. One of these problems, I was using Arabic writing Pattern. Arabic Patteren doesn't give the ideas cleare and straight forward. it lets readers think a lot to catch the conscript. Also, I was using Arabic Phrase in english writing which couldn't fit in ~~these examples~~ english writing ~~except some of~~. I was just translate what I want to write which make some words in improper place in sentence.

I feel that I have to work on conclusion and the beiging of each ~~s~~ body Paragraph. Also, I need to use advance ~~transmission~~ ^{transmition} words.
