

April 19

The teacher started the lesson by asking the students to turn to page 122 on their books. I got a copy of the page yay! The ~~the~~ teacher started doing the reading comprehension exercise with the students out loud. I helped late students on ~~finding~~ ^{the} finding ^{the} page number and following the exercise. After doing so, the teacher gave students handout myself included and explained the ~~reason~~ reason behind giving students the handouts. The handout was a writing prompt one of the students got on her IELTS recently so the teacher felt it was important to ~~take~~ explain and do the writing with the students. "It is an old writing prompt but I am glad they ~~decided~~ decided to bring it back so I can make sure you get a full mark when you have it on your exam." ~~The~~ ^{the} teacher said. Then, the teacher played a listening clip and asked the students to listen and do the exercises on page ~~122~~ ¹⁰⁷ on the book. I was given a copy ~~to be~~ so I listened and took notes then gave my notes to a student who didn't get 80% of the listening because he found it difficult. We did not do any speaking or pronunciation today.
