

ASSIGNMENT 1.1

Email Message

In this assignment, you will send me a private email message, answering the following questions.

In your message, tell me if you've ever written a research paper before, and if you have, what class was it for. Also, tell me why you believe that learning how to write a research paper is important in your college or university studies. What is your major? Do you plan to transfer to a university to continue your studies? What do you think is the difference between a student and a scholar?

Don't forget to check your grammar and your spelling. This is a composition class! Minimum word count is 150. You will be graded on word count, grammar, mechanics, and spelling.

STEPS:
