Quizzes: Quizzes are brief exams that test a student's knowledge of material discussed in the videos and covered in the assigned readings. An image group for each quiz will be provided on ArtStor. In addition to these images, an unknown slide (not discussed in class and not contained in the image group) may be presented on the quiz. Students will be asked to identify, date and discuss any unknown images using their knowledge of similar materials discussed in class and in the readings.

You are expected to take the exams/quizzes before the deadline listed on Canvas.

- **Slide identifications.** For each slide shown, provide the following information:
Name of artist
Title of work
Date
Discussion – Your discussion should demonstrate your knowledge of the the work(s) of art within its historical, political, cultural, social, or religious context. The discussion should not be a description of what you see on the screen but instead is an opportunity for you to provide a discussion of the work and its meaning. There are a variety of paths that you could take in this discussion but you should blend your understanding of the readings, videos, and other sources of information into your answer. The discussion forum provides a good place to develop your understanding of the art that we will examine and to sharpen your ability to connect the history to the objects that you will view.
