

learner, it was observed whether the teacher would switch on the power. He ^{Results}
^{showed} discovered that almost two thirds of the participants will have the voltage to as high as ^{delivered the maximum} of

450 volts even with the knowledge of the danger posed.

^{Milgram (year)} ^{more specific}
He concluded that many people would blindly follow orders from authorities

despite that they are aware of dangers posed by their deeds. The danger could be

severe to the people who receives it. This is rampant in schools homes and even.

Limitations?

Recommendations?

References

Sentence structure only capitalize first word.

Milgram, S. (1963). Behavioral Study of obedience. The Journal of abnormal and social psychology, 67(4), 371-378. doi: ?

Reference Sheet Guidance

- ① Always Alphabetize by Last Name of Author
- ② Title of Article is sentence Structure. Only capitalize first word, proper nouns, and the first word after :
~~example:~~ example: Behavioral Study
 ↳ Behavioral study of infants: Stages of development
- ③ Title of Journal: Italicized and Capitalized like the title of a book, or movie
- ④ Include full range of pages (371 — ³⁷⁸~~380~~)
- ⑤ doi: _____

Milgram, S. (1963). Behavioral study of obedience. The Journal of Abnormal and Social Psychology, 67(4), 371-378. doi: _____

ACADEMIC WRITING

GENERAL WRITING TIPS

• Understanding Proofreading Marks

▪ Mark

- | Add a space
- / Make lowercase
- ^ Make an addition
- ↻ Transpose
- Delete or replace
- └ Begin new paragraph
- Make a correction

▪ Example

The study|sampled 100 students.

The study/sampled 100 students.

The study sampled students.

The sampled¹⁰⁰(study)100 students.

The ~~long~~ study sampled 100 ^{students} ~~people~~.

The study sampled 100 students└then...

The study (simplified) 100 students.

Comment Sheet

ALABDULMUHSIN YASIR

APA	Content
Title Page ☐ <i>Missing</i> ☐ Write "Running head: TITLE" in upper left ☐ Match header to exact title (limit 50 characters) ☐ Write page number in upper right ☐ Capitalize paper title, name, and affiliation, and then center in the middle of the page Formatting ☐ <i>Generally does not conform to APA style</i> ☐ Write "TITLE" in upper left ☐ Begin paper with centered, capitalized title ☐ Print single-sided ☐ Double-space all text ☐ Remove spaces between paragraphs ☒ Set all margins to 1 in. ☐ Use 12 pt. Times New Roman font ☐ Incorrect headings, please revise Citations ☐ Too infrequent; cite every new idea and ¶ ☐ Provide author last name(s) ☐ Remove first names or initials ☐ Provide year of publication in all citations ☐ Change quotes to paraphrases ☐ Inaccurate formatting, please revise References ☐ <i>Missing</i> ☐ Include on separate page ☒ Use hanging indent ☐ List author(s) names and initials ☐ Provide year of publication ☒ Write article title in <u>sentence case</u> ☒ Write journal name <u>capitalized</u> in italics ☒ Fix volume or <u>page numbers</u> ☒ Fix doi number ☐ Inaccurate formatting, please revise	Define Concepts and Theories ☐ <i>Missing</i> ☒ Define more clearly ☐ Describe in plain English ☐ Use a paraphrase instead of a quote Hypotheses ☒ <i>Missing</i> ☒ Rewrite more clearly ☒ Inaccurate, please revise Sample ☒ <i>Missing</i> ☒ Include size for all samples ☒ Include demographics for all samples Method ☒ <i>Missing majority of procedural steps</i> ☒ Omitted important procedural details ☒ Discuss use of deception (if applicable) ☒ Operationalize measures explicitly ☒ Put into chronological order ☒ Rewrite more clearly ☒ Inaccurate, please revise Findings ☐ <i>Missing</i> ☐ Discuss important "take-home message" ☒ Rewrite more clearly ☒ Inaccurate, please revise Limits and Recommendations ☒ <i>Missing limitations</i> ☒ <i>Missing recommendations</i> ☐ State limitations explicitly using formal language ☐ Restate recommendations more formally (e.g., "future research should investigate...") ☒ Rewrite more clearly Writing Quality ☒ Fix grammatical errors, misspellings, or typos ☐ Write "participants" in place of "subjects" ☒ Use simple past tense (e.g., researchers found) ☒ Tone is overly formal or informal ☒ Passages are vague or confusing, please revise
General Comments:	

Headings to Include in Paper

① Introduction

- each
one
new
paragraph
- Background Information
 - Restated Hypothesis (In own words)
 - Participants (sample size, demographics, where were they gathered)

② Method

- Describe study design (experimental, ^{or} observational)
- Summarize what was done in the study

③ Results

- What major conclusions were reached
- Any # (numbers) or data found

④ Limitations and Recommendations

- What in the study was a possible confounding variable?
- What could be done to make it better next time?
- What future research could be done to add to this one?

Side Notes

*"Participants" replaces "subjects"
