Written Assignment: Graphing A Circle

Total Points = 50 (5 points per questions)

- 1) Graph the circle $(x - 4)^2 + (y - 2)^2 = 25$. Label the center and at least four points on the circle.

- 2) Graph the circle $(x + 2)^2 + (y + 1)^2 = 32$. Label the center and at least four points on the circle.
