

AW.7.2 Link the WM Web page to the DBC Web page.

AW.7.3 Using the WMCRM database, code a PHP Web page to display the data in SALESPERSON. Add a hyperlink on the WM Web page to access the page. Using your database, demonstrate that your page works.

AW.7.4 Using the WMCRM database, code a PHP Web page to display the data in VEHICLE. Add a hyperlink on the WM Web page to access the page. Using your database, demonstrate that your page works.

AW.7.5 Using the WMCRM database, create a view named viewSalespersonVehicle and include in it all the columns in both the SALESPERSON and VEHICLE tables. Code a PHP Web page to display viewSalespersonVehicle. Add a hyperlink on the WM Web page to access the page. Using your database, demonstrate that your page works.

AW.7.6 Using the WMCRM database, code two HTML/PHP pages to add a new CUSTOMER to the WMCRM database. Create data for two new CUSTOMERs and add them to the database to demonstrate that your pages work.
