

SOJOURNER-DOUGLASS COLLEGE
MID- TERM
HEALTH AND MANPOWER RESOURCES

1. In your opinion given an overview of the most pressing problem(s) related to Health Manpower Resources in the state /country today.
2. How would you change any present state regulation(s) governing hospitals that could aide in reducing the cost of hospital construction in today's environment?
3. Is it possible to change any present law, possible attacking the way we deliver health care to the poor and disadvantage?
4. What, if any, present day health care problem should we give up as a lost. Why? Should the answer be none? Explain Why.

REMEMBER, I AM A LAYMEN AND KNOW NOTHING ABOUT THE SUBJECT
MATTER.
