

Find the area of each of the following:

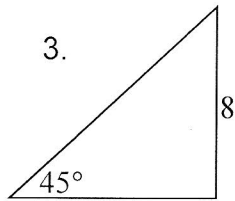

1.

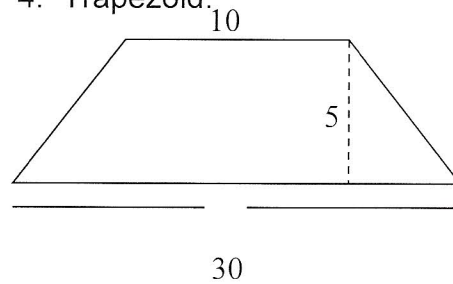

2.

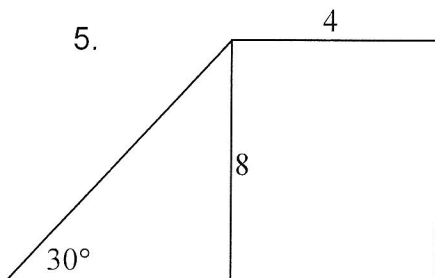

3.

4. Trapezoid:

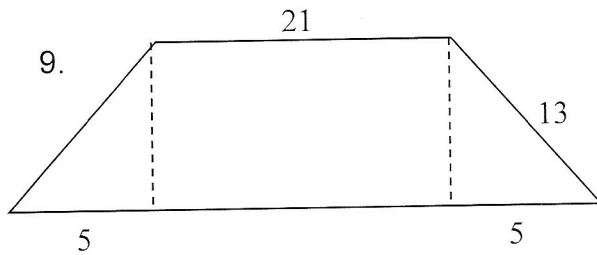

5.

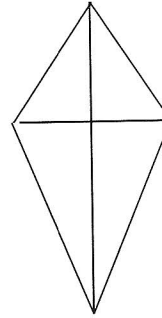

6. Find the area of a square with a diagonal of 6.

7. A square has an area of 25 cm^2 . Find the length of each side.

8. A circle has a radius of 4. Find the area.

10. Diagonals 9 & 14

11. Find the area of a rhombus with a perimeter of 52 and a shorter diagonal of 10.

12. Find the height of a triangle if its base is 7 and its area is 21.

13. Find the base of a parallelogram with height 3 and area 42.

14. Find the area of a triangle with side lengths of 25, 25, and 14.
